

Features

- · Suitable for Han® C crimp contacts
- Designed for a high working voltage up to 830 V
- Finger safe male and female contacts
- · High density of contacts

Technical characteristics

Number of contacts 40 A Rated current Rated voltage 830 V Rated impulse voltage 8 kV Pollution degree Rated voltage acc. to UL 600 V Insulation resistance $>10^{10} \Omega$ Contact resistance ≤1 mΩ -40 ... +125 °C Limiting temperature ≥500 Mating cycles ≥10000

Mating cycles with other HMC

components

Material flammability class acc.

to UL 94

RoHS

Polycarbonate (PC) RAL 7032 (pebble grey)

Copper alloy

compliant, compliant with

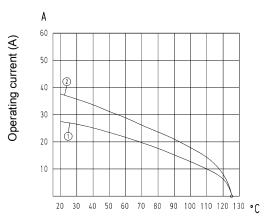

exemption

Derating

Current carrying capacity

The current carrying capacity of the connectors is limited by the thermal load capability of the contact element material including the connections and the insulating parts. The derating curve is therefore valid for currents which flow constantly (non-intermittent) through each contact element of the connector evenly, without exceeding the allowed maximum temperature.

Measuring and testing techniques acc. to IEC 60512-5-2

Ambient temperature (°C)

- ① 24 B hoods/housings with 6 modules Conductor cross-sec-
- 2 24 B hoods/housings with 6 modules Conductor cross-section 6 mm²

Specifications and approvals

EN 60664-1 IEC 61984 UL 1977 ECBT2.E235076 **DNV GL**

Remarks on the crimp technique

The wire gauges mentioned in the catalogue refer to geometric wire gauges of cables.
